

Present: Ann Campbell, Bob Curran, David Carson, Michael Gallagher,

Apologies:

In Attendance:

Minutes, 14 March 2011

Proposer: Bob Curran

Seconded: David Carson/Ann Campbell.

Preparations for Sewage Meeting: Sewage- Scottish Water will be in attendance, according to Anne Marie Dewar (liaison officer) Sewage Capacity has reverted to last useable status!! Email from D Buchanan P&K Said it was fixed which is wrong. Letter sent to Mr Buchanan showing our concerns

A Central registrar for smell seems to be an important way of retaining Data.

Access DBase will be used to graph smells with R.Curran as data coordinator. We required a method of monitoring, a method of getting in touch, Coordination of all methods. David will contact Kerr Picken Engineer, regarding COMING TO MEETING.

Jo Kettles tendered resignation to Community Council she will be badly missed and a difficult act to follow.

Requirement for a new treasurer discussed

Requirements to co-opt new members (3)

Garden Competition: Garden Competition discussed at length in separate meeting and POP will sponsor Childrens Competition.

New Categories are:

1. Best overall residential garden - separate prizes for Coupar Angus, Ardler and Bendochy;
2. Best out of the aforementioned three.
3. Senior Citizens Container
4. Hanging basket
5. Pot plant (under 12)
6. Vegetable garden
7. Business premises garden

Citizen of the Year: Nominations and Proposals to be sent out and the possibility of sub-committee to assist in selection. Criteria for selection of Citizen.of.Year should be drawn up, David Carson to organise for August Timescale.

Michael Gallagher discussed proposals from Convention of Community Councils.

1) As well as having a central committee we would have 12, one for each ward the only permanent members would be councillors for the ward. We are only talking about contentious developments, and local people would always be involved, therefore, the community, would in effect make the decisions.

Idea is not unprecedented, Fife Council currently have 7 such councils.

Idea being, that Local People are strongly involved in local planning applications.

Community Councils need more powers, to help the community at a more viable level.

Too soon for definite recommendations, but a real call for a feasibility study is required

2) An objection from a community council carries no more weight than an individual. We feel the requirements should return to 2007 method.

Snow Clearance: Clearing of Pavements do P&K require better equipment.

Review of clearance equipment is required The tractors are ineffective for provision of heavy snow.

No mention of extra farm machinery requirement, A new study should identify the requirements with heavy snow. David Carson will draft new letter to Perth and Kinross Council.

Present: Ann Campbell, Bob Curran, David Carson, Michael Gallagher,

Apologies:

In Attendance:

After School Club: David talked over the meeting regarding After School Club. Discussion ensued.

Correspondence
